LUXURY BED & BREAKFAST CATERES TO K-9 GUESTS

Once upon a time, a dog named Spot sadly watched as his family drove away for vacation. The fine lodging establishments they preferred would not permit guests of the K-9 variety. But that changed when Spot's family discovered a cozy bed and breakfast in the mountains of Northern California that not only "allows" pets, but welcomes them! All furry guests of the dog variety sleep on a custom pet bed, have use of crystal food and water bowls, and enjoy homemade dog biscuits during their stays.

Beside Still Waters Farm Bed & Breakfast offers doggy guests traveling with their humans the choice of two luxury spa cottages. Rose Arbor Cottage is an intimate retreat with room for two humans and one large dog or two smaller dogs. Featuring a queen canopy bed, oversized whirlpool tub, aromatherapy steam-shower, footspa, fireplace and other fine amenities; the people are even more spoiled than the pooches. Meadowood Guesthouse can accommodate six human guests and up to three dogs of any size. The roomy cottage provides plenty of pampering for both adults and pups.

Located 8 miles outside of Willits and nestled on over 21 acres, animals enjoy plenty of room to run at Beside Still Waters Farm. A full breakfast for the people guests is delivered each morning and served in-cottage. Willits is home to several eating establishments with outdoor seating to accommodate K-9 guests and there are numerous walking trails and picnic spots in the area.
